RE: Notification of Nutritional Support Statements

Dear Sir or Madam:

I hereby notify the Food and Drug Administration (FDA) of the use of statements of nutritional support in the labeling of Acetyl-L-Carnitine, 250mg and 500mg tablets, a dietary supplement. Source Naturals® is the manufacturer of Acetyl-L-Carnitine.

Statement being made in the labeling of Acetyl-L-Carnitine, 250mg and 500mg tablets:

- (1) Acetyl-L-carnitine (ALC) is an amino acid-like compound that is related to choline. It may assist in the conversion of choline into acetylcholine. Acetylcholine, one of the body's key neurotransmitters, chemically transmits messages from one nerve cell to another.

To the best of my knowledge, and based upon information and belief present at the time of the executing of this notice, I certify that the above information is accurate and complete. Source Naturals possesses substantiation that the statements are truthful and not misleading.

Ira L. Goldberg
President, Source Naturals®
